

# Quintet in F Puzzle

A new design by Stewart Coffin, #253

Cut this piece out of the frame very accurately.

**A Gift from Jerry Slocum**

Thanks to Rosemary Howbrigg, this was her IPP31 Exchange Puzzle.  
Thanks to Harold Raizer for drawing the Quintet in F Puzzle.

Cut the five "F" pentominoes very accurately out of card stock with an Xacto knife and assemble them in the frame opening on the left. Either side may be up. For a long lasting puzzle cut the puzzle accurately out of Masonite or wood.

**This is a very difficult puzzle!**
