

Cross Checker Paper Folding Puzzle

This is a paper folding puzzle. You are given two rectangular sheets of paper with some slits. Your mission is to fold and weave them to a cross checker that you can find in your gift package.

For a beginner, make the paper $4\text{cm} \times 16\text{cm}$
with four slits of length 12cm .
For an expert, make the slit length 10cm , not 12cm .

Quiz: How shorten can you it?

In you gift package, you can find the real ones.
