

# G4G7 Exchange Book - Vol 2

|   |          |
|---|----------|
| <b>Novelties</b>  | <b>1</b> |
| How to Weave a Wobbly (Nobbly).....                     | 1        |
| <i>Dick Esterle</i>                                     |          |
| The Maxwell Motor .....                                 | 2        |
| <i>Gary Foshee</i>                                      |          |
| Mova Globe Designs.....                                 | 4        |
| <i>Bill French</i>                                      |          |
| <b>Puzzles</b>  | <b>9</b> |
| Why Puzzle?.....  | 9        |
| <i>Tyler Barrett</i>                                    |          |
| The Checkered Chain .....                               | 13       |
| <i>Les Barton</i>                                       |          |
| Sudoku Variations from the 1st World Championship ..... | 15       |
| <i>Nick Baxter</i>                                      |          |
| Diagonal Peg Solitaire .....                            | 19       |
| <i>George I. Bell</i>                                   |          |
| G4G7 Gift from Elwyn Berlekamp.....                     | 21       |
| <i>Elwyn Berlekamp</i>                                  |          |
| Scavenger Hunt, Google Maps Style .....                 | 23       |
| <i>Benjamin C. Chaffin</i>                              |          |
| Why Should Latin Squares Have All the Fun?.....         | 25       |
| <i>Timothy Y. Chow</i>                                  |          |
| Martin Gardner Heptagon.....                            | 28       |
| <i>Bill Cutler</i>                                      |          |
| The Puzzling World of Oskar Van Deventer.....           | 29       |
| <i>Tom Cutrofello</i>                                   |          |
| Seven Puzzles from The Puzzle Museum for G4G7.....      | 35       |
| <i>James Dalgety</i>                                    |          |
| Extreme Puzzles .....                                   | 39       |
| <i>Frans de Vreugd</i>                                  |          |
| A GrANDER Puzzle.....                                   | 44       |
| <i>David S. Dillon and Jeremiah Farrell</i>             |          |
| A G4G7 Chess Puzzle.....                                | 46       |
| <i>Noam D. Elkies</i>                                   |          |

|   |     |
|---|-----|
| The SEVEN COUNTER PUZZLE.....                                       | 47  |
| <i>Todd Estroff</i>   |     |
| Triplets .....  | 49  |
| <i>Karen Farrell</i>  |     |
| JPF's "Fishy" Fish.....   | 54  |
| <i>James P. Fink</i>  |     |
| Navigati.....   | 56  |
| <i>Adrian Fisher</i>  |     |
| The Logologicomathemagical 7x7 Puzzle .....                         | 58  |
| <i>Jeremiah Farrell and Robert Friedhoffer</i>                      |     |
| Exchange Gift for G4G7.....   | 61  |
| <i>Markus Götz</i>  |     |
| Seven Puzzles for G4G7 .....  | 63  |
| <i>Serhiy Grabarchuk</i>  |     |
| Nine Problems.....  | 67  |
| <i>Emrehan Halici</i>   |     |
| Two Puzzles .....   | 72  |
| <i>Bob Harris</i>   |     |
| Seven 7x7s for G4G7 .....   | 74  |
| <i>Eric Harshbarger</i>   |     |
| Counterfeit Coin Puzzles .....                                      | 75  |
| <i>Dick Hess</i>  |     |
| Roman Cryptarithmic.....  | 84  |
| <i>Haym Hirsh</i>   |     |
| An Interesting Puzzle Design for "The Game".....                    | 85  |
| <i>Wei-Hwa Huang</i>  |     |
| A Heptiamond Equation .....   | 91  |
| <i>Kate Jones</i>   |     |
| G = 7 Puzzle .....  | 93  |
| <i>Kate Jones</i>   |     |
| Magic Heptominoes .....   | 95  |
| <i>Kate Jones</i>   |     |
| The Annotated Ultra-Definitive Alice's Adventures Under Water ..... | 97  |
| <i>Ronnie Kon</i>   |     |
| Yoshiyuki Kotani's Recent Puzzle Study .....                        | 118 |
| <i>Yoshiyuki Kotani</i>   |     |
| We Have Enough Twists, Thank you .....                              | 130 |
| <i>Andy Latta</i>   |     |

|  |     |
|--|-----|
| Rolling-Polycube Maze . . . . .  | 136 |
| <i>Robert Barrington Leigh</i>   |     |
| Word Puzzles From Tom Lensch For G4G7 . . . . .                        | 137 |

## Forward

G4G7 marked several milestones for the gathering.

Special G4G7 stamps were designed for the invitations.

The three day format was extended to four to accommodate more presentations.

Dual presentation tracks were added, and we still ran out of time.

The number of attendees almost doubled over G4G6 to almost 280.

91 Physical exchanges were collected, combined and handed out at the gathering ...

and we received more paper submissions than we had attendees at G4G6 which led to these volumes.

The submissions have been loosely grouped by category (sorry if I got it wrong), and are listed in order of the gift contributor's name - which is not necessarily the same as the author's name. The articles are in different formats which precluded room to add titles and contributor's name, so please use the Table of Contents.
